PEOPLE'S JOURNAL OF SCIENTIFIC RESEARCH

People's Group

Nurturing Humanity through Health & Educational Excellence

VOL. 2 (2)

JULY - 2009

INSTRUCTION TO AUTHORS

"People's Journal of Scientific Research" is an official journal of People's Group, whose purpose is to publish research papers, short communication, review articles including book review and informative article on all scientific subjects including Medical & Dental science, Medical education, Nursing & Paramedical. The journal will be published twice a year (Jan & July).

The Editor, reserves the right to improve on style, grammar & make corrections in the manuscript accordingly. The size of manuscript (including tables, references & figures/ photograph) will be limited to four printed pages.

- Manuscript be submitted in duplicate with two sets of illustration, photographs, tables.
- Use one side of A4 white bond paper with margins of atleast 2.5 cm on each side.
- Double – space throughout including title page, abstract, key words, text, acknowledgement, references, figure/photographs, legends and tables. Use atleast 12 point font size.
- Manuscript submitted should also be accompanied with an electronic copy on CD with photographs in JPG format.

Guide Lines for Manuscript Preparation

1. **Title Page** should contain: concise and informative title, Name(s) of the author(s) with initials and surname, name of the department, Institution & complete address with telephone number of the corresponding author.
2. **Abstract** should not be more than 300 words & should be provided on a separate sheet. It should present the most important results stating background, methods, results & conclusion.
3. **Key words** (4 to 6).
4. **Introduction** – should state purpose of study & give brief review of pertinent literature. Cite only those references that are essential to justify the purpose of study.
5. **Materials & Methods** – should follow the introduction & should provide enough information to permit repetition of work/ project, giving how the study was designed, carried out and data were analyzed. State whether study was approved by ethical committee or not. Describe statistical methods used with required detail. Give actual p-values, define statistical terms, symbols and abbreviations.
6. **Result** section should describe the outcome of study giving relevant data. Avoid repeating in the text all the data depicted in tables or illustrations: Tables (numbered in roman numerals) & illustration (Numbered in Arabic Numerals) should be prepared on separate sheets with headings or legends. Minimum size of illustration should be 8 x 10 cm & top of figure should be marked on a label pasted on its back indicating number of figure, Author's name & left side of figure. Cite the tables/ figures in the text at appropriate place.
7. **Discussion** ordinarily should not be more than 1/3 of total length of manuscript and should include summary of major findings, their relationship to other similar studies and publications of these findings in future research.
8. **References** - It should include only those publications which are mentioned in the text & must be arranged alphabetically.
   a. Papers published in journal / periodicals: Authors surnames followed by initials of first names; full title of paper; full name of journal; year of publication, volume/ issue (in Arabic Numerals) & first & last page numbers.
   b. When writing a reference in text the surname of the author with year in bracket should be given. If there are two authors, the surnames of both should be given & if there are more than two authors, then surname of first author followed by "et al".eg. Rocs, D.B. Congenital anomalies associated with thoracic outlet syndrome. American Journal of Surgery, 1976; 132:771-778.
   c. Books: Authors surnames followed by initials of first name; full title of the books; In: name of chapter (if any); Editions & volume number; Name & Domicile of Publishers; Year of Publication; PP (Page no. first & last page) eg. Weiner JS:Human Ecology. In: Human Biology, an introduction to human evolution, variation & growth. W.A. Harrison, J.S. Weiner & N.A. Barnicat (eds), Ist edition, Oxford University Press, Oxford ; 1964, PP 401-508.
9. **The first author will receive five reprints of the article and a copy of the Journal.**
10. **All manuscripts must be accompanied by the following statement:**

"In consideration of PJSR accepting the manuscript in review, undersigned author (s) hereby transfer (s), assign, (s), or otherwise convey (s) all copyright ownership to PJSR in the other events that the same work may be published by PJSR. The author (s) warrants that the article is original, is not under consideration by any other journal and has not been previously published and the takes responsibility for the content.

Furthermore, I/we warrant that all investigations reported in the publication were conducted in conformity with the recommendations from the Declaration of Helsinki and the International Guiding Principles for Biomedical Research involving animals. That the Ethical Committee clearance has been obtained for experiment on animals or trial involving human beings."

My work is a part / not a part of dissertation.

Title of the paper:

Author's name (s) with signature & date in order of appearance in manusent.

Article (s) should be sent to Dr. G.S. Longia, Chief Editor PJSR, Prof. & Head, Department of Anatomy, People's Dental Academy, People's Campus Bhanpur, Bhopal – 462037, Ph. No. 0755 4005366 (Office), 09425017834 , E-mail : editor@pjd.peoplesgroup.in
